IMSDA Events Getting started

Simple steps for club directors and Area Coordinators

YOUR CLUB

YOUR RECORDS

YOUR EVENTS

For club directors and Area Coordinators
Practical orientation · October 2026

Why we use IMSDA Events

Keep club information together

Maintain the roster, club forms, meeting records and achievements in one place.

Reuse the roster for events

Choose the people attending instead of starting a new list each time.

See what needs attention

Directors see their next tasks. Coordinators review records and participation.

Return to the saved record

Find the report, registration, choices or approved working copy again.

Know which job you are doing

Club roster

Who belongs to the club for the year.

Event registration

Who is going to one event, and the choices made for them.

Your account

Your sign-in and the tools assigned to you.

Coordinator view

An overview of clubs, submitted records, points and participation.

Begin at the same website

GO TO events.imsda.org

1

Open the website

Go to events.imsda.org.

2

Choose Sign in

Use Sign in at the top of the page.

3

Use your own account

Enter the email and password for your existing account.

Already signed in? Choose My account or My club to continue.

New director? Accept the club invitation

GO TO Your personal club invitation → Your account

1

Check the invited email

Use the address that received the invitation.

2

Sign in or create an account

Already have an account? Use it. New here? Create one.

3

Choose Accept

On your account page, accept the correct club and role.

An account and a club invitation do different jobs. Accept connects you to the club.

Creating an account: verify your email

GO TO Create an account → Create account → Verify and continue

1

Enter your details

Use your name, invited email and a password meeting the checklist.

2

Find the emailed code

Keep this browser open while you check your email.

3

Verify and continue

Enter the six-digit email code on the verification page.

The email code proves your address. It is different from the extra sign-in code.

Returning users: sign in and continue

GO TO events.imsda.org → Sign in

1

Use your existing account

Enter Email address and Password, then Sign in.

2

Confirm it is you

Use your authenticator, recovery code or offered passkey.

3

Open your workspace

Continue to My club, or the Area coordinator card.

You do not need a new invitation each time you return to an accepted club role.

Why the extra sign-in step matters

Protect the club’s records

Club tools can open personal information about young people.

Use one supported method

An authenticator app, or a passkey when offered, meets the requirement.

Keep recovery available

Save the one-time recovery codes when they are shown.

Use your own sign-in

Keep passwords and codes private; ask for your own access.

Set up an authenticator when prompted

GO TO Set up two-step sign-in → Set up an authenticator

1

Add the account to your app

Follow the displayed instructions and setup key.

2

Confirm and turn on

Enter Code from your authenticator, then confirm.

3

Save recovery codes

Choose I’ve saved these codes, then Continue.

Need an app? Use Which app should I use? on the setup screen.

Open the workspace for your responsibility

Director or deputy

Choose My club or My clubs, then the correct club if asked.

Area Coordinator

On the Area coordinator card, choose Clubs overview. Clubs also opens your club list.

Personal event registration

Use My registrations for your own accessible registrations.

Tools missing?

Check the account email, then ask the office to check your assignment.

Directors: start at your club Home

GO TO My club → Home

1

Check the club and year

Read the heading before changing information.

2

Read the next task

Home brings together the items needing attention.

3

Open the section you need

Start with Roster, Forms, Monthly Records or Club events.

A deputy has the director’s capabilities. Other club helpers may see fewer tools.

Add a member to the roster

GO TO Roster → Add to roster

1

Open Add to roster

Check first that the person is not already listed.

2

Enter the requested details

Use the real club record, with information you are allowed to enter.

3

Check the saved row

Choose Add to roster and confirm the person appears.

The roster keeps club membership. You choose event attendance separately.

Update a member without losing their history

Edit and Save

Use the person’s Edit control to correct the existing record.

Deactivate

Keep the person on file while omitting them from new registrations.

Reactivate

Return an inactive person to the active roster when appropriate.

Remove

Read carefully: this erases roster details and cannot be undone.

Collect and find club forms

GO TO Forms → Available form → Filled forms

1

Choose an available form

The conference enables the forms shown here.

2

Complete or request it

Fill in for a member, or use the private-link option.

3

Return to Filled forms

Open a draft, or choose View and print for a submitted form.

A sent link and a submitted form are different states. Keep private links private.

After a meeting: record it while it is fresh

GO TO Monthly Records → Month → Add meeting note

1

Open the right month

Choose the month for the meeting you are recording.

2

Add meeting note

Enter the date, counts and meeting details.

3

Save the note

Use optional attendance check-off if your role has it.

Meeting notes help you prepare the Monthly Record later.

Finish and submit the Monthly Record

GO TO Monthly Records → Month → Open Monthly Record / Continue report

1

Review the month

Check the details and the due date shown.

2

Save draft if unfinished

A draft lets you return; it has not been submitted.

3

Submit report

Submit when ready and check that the result says Submitted.

The current due date is the 10th of the following month. Check the date on the page.

Register the people who are going

GO TO Club events → Register or Continue

1

Who’s going

Select the actual attendees from your roster.

2

Each person’s details

Complete the requested location, class and other choices.

3

Review

Check the people and choices, then submit and look for confirmation.

A saved draft is not a completed registration. Read full, waitlist and deadline messages.

Return to a registration you already made

GO TO Club events → View

1

Open the existing record

Check the people, choices and current status.

2

Make permitted changes

Use Save changes when the event’s edit window allows it.

3

Find the working copy

Use Print club packet or Download registration PDF where offered.

For a church-billed event, the sponsoring church follows the office billing process.

Use achievements and supply tools when needed

Honors

Record earned honors and use the available report or CSV.

Class tracking

Review the supported class/award items and Master Award progress.

Orders

Prepare the helper list, check stock and track hand-outs.

Roster exports

Build a roster export, Preview it, then Download CSV.

Area Coordinators: see progress and offer help

Overview

Identify the clubs and records needing a closer look.

Monthly Records

Read submitted reports and notice unfinished or missing work.

Points and events

Understand recorded progress and event participation.

Follow up

Open the relevant record, then contact the director or office.

Find a club and open its information

GO TO Clubs → All clubs → Open

1

Open All clubs

Use Clubs in your account navigation.

2

Find the club

Search by club name, church or city.

3

Choose Open

Read the club’s information; check the View only label.

The club list shows available clubs. It does not currently enforce a “my area” selector.

Use Overview to choose your follow-up

GO TO Clubs → Overview

1

Check the year shown

Make sure you are reading the intended club year.

2

Review the summaries

Look at reports, points, roster and reminder counts.

3

Open the club

Understand the item before contacting its director.

A summary count points you to a task. Opening it does not complete the task.

Read Monthly Records and spot unfinished work

GO TO Clubs → Monthly Records → Submitted month

1

Find the club and month

Check the year heading and the month column.

2

Read the status

Draft, Due, Missing and submitted points mean different things.

3

Open a submitted month

Select its points link to read the report.

Missing means the due date passed. A draft is still unfinished, even after the due date.

Understand points and the downloaded file

GO TO Clubs → Points → Download points CSV

1

Check the year and total

Submitted report points + yearly registration points.

2

Read the chart or table

Sort by points or club name when needed.

3

Download points CSV

Use the file for the full year’s authorized club list.

A name search narrows the screen. The CSV covers the full year’s list, not just that search.

Check which clubs are going to an event

GO TO Clubs → Club events

1

Find the event

Check the event and the year shown.

2

Read each club’s status

Registered, Draft, Waitlisted and Cancelled are different.

3

Follow up with the director

Ask about the specific unfinished registration or event choice.

A club roster and an event registration answer different questions.

Know the two special review pages

Team approvals

Review only requests assigned to your event locations. Read the event’s rules.

Approve or Decline

Use these actions only when offered to your own coordinator account.

New clubs

Read the application information. A system administrator makes its decision.

Other club corrections

Ask the director or office to update the record through the proper workflow.

PRACTICAL EXAMPLE

A coordinator example: follow one missing item

GO TO Overview → Monthly Records → Follow up

1

Notice Riverton’s record

Overview points you toward the unfinished month.

2

Check the month’s state

Read whether it is Draft, Missing or already submitted.

3

Contact the director

Name the club and month, and ask what help is needed.

Use the saved information to make the conversation specific and useful.

Build a simple working rhythm

Club directors

- Update the roster when people or details change.
- Add meeting notes; finish and submit the Monthly Record.
- Before an event, check the actual attendees and choices.

Area Coordinators

- Begin with Overview and Monthly Records.
- Review Club events before the next event.
- Follow up on the specific record or assigned request.

If something is missing or not working

Forgot password?

Use Forgot password? → Send me a code. Keep the same browser open.

Club or Clubs section missing?

Check the signed-in email and ask the office to verify the invitation or assignment.

Lost authenticator?

Use an available recovery code or passkey; ask the office if neither is available.

A page or save problem?

Tell support the club/year or event, page, action and visible error.

Finish safely and return next time

GO TO Save → Check the result → Sign out

1

Check what saved

Check whether your task saved, submitted or confirmed.

2

Choose Sign out

Use Sign out, especially on a shared device.

3

Return to the same website

Next time: events.imsda.org → Sign in.

Keep your existing account, authenticator/passkey and recovery information available.

The three things to remember

Use your own account

Sign in at events.imsda.org and complete the requested confirmation.

Right club or role

Check your club and year, or use the coordinator view for oversight.

Check the result

Read whether the task saved, submitted or confirmed; ask for help when needed.
